MEMORANDUM FOR: ASSISTANT DIRECTOR
OFFICE OF RESEARCH & REPORTS

ATTENTION : CHIEF, REQUIREMENTS DIVISION

SUBJECT : Financial Transactions on Dollar Account of Czechoslovakia

REFERENCE :  25X1A

1. An analysis of Czechoslovakian dealings on dollar account is requested.

2. Czechoslovakian surplus dollars earned by exports were summarily reduced by the withdrawal last November of tariff concessions under GATT and the cessation of consular invoices. It is believed that Czechoslovakia has been severely hurt by this action, and is attempting by many and devious means to regain the dollars previously received from a surplus account.

3. It would be appreciated if any intelligence could be provided which would indicate the status of Czechoslovakian dollar accounts; their nature and flow; from where do the dollars come and to where do they go.

4. Any questions pertaining to the above request may be referred to  on extension 8655.
